#### PREFACE.

So rapid has been the growth of Regina during the past few years that not only do newly-arrived Easterners, Europeans and Americans experience some difficulty in finding their way about but even old-timers acknowledge that it becomes constantly more difficult to keep track of the ever increasing tide of newcomers and new business establishments. The present volume is published with a view to helping both classes out of their difficulties.

The compiler of the present issue of the City Directory was called in shortly before last Christmas and instructed to get together materials for the production of a Business Directory of Regina in addition to the data already in hand and bring out the whole with as little delay as possible. It is a matter of great regret to the compiler that the City Directory Co. could not allow him more time in which to complete the work, but he undertook the task and in the interim has done his best to make the City Directory as correct and complete as possible.

Much information has been received from the heads of the Government Departments, business men of the city and citizens generally, to all of whom the compiler desires to express his thanks. Special acknowledgements in this respect are due to Mr. J. Kelso Hunter, the city clerk. To the advertisers the compiler tenders his best thanks, for without their financial assistance this book could not have seen the light.

It was intended to include in the present issue a section containing brief biographies of Regina's prominent citizens and of those who helped to make the city what she is today. This section will be included in our next issue as the materials to hand up to time of going to press are neither sufficient nor representative enough.

To the citizens of the City of Regina this Directory is dedicated with all its imperfections. The compiler confidently begs their indulgence in overlooking these and with the same confidence, he earnestly asks their advice, suggestions and assistance in perfecting the 1908 issue.

## PROVINCE OF SASKATCHEWAN.

Saskatchewan is that part of Canada lying between the 103rd and 110th Meridian and the 49th and 60th parallels of Latitude. It embraces an area of 275,000 square miles. Its surface is largely prairie except in the north which is partly wooded.

In the early history of Canada, Saskatchewan was known only to the fur-traders and it is probable that the Verendryes and other French *coureurs de bois* were the first white men to set foot on its territory. It formed part of the vast domain nominally ruled by the Hudson's Bay Company and was the scene of many a fierce conflict between that corporation and their rivals the Nor'Westers. It was later on a part of the huge purchase which the Dominion Government made of the Hudson's Bay Company, when at Confederation the whole great country was amalgamated into the Dominion of Canada.

For several years after Confederation the entire northwest was under the direct supervision of the Dominion Government. The Government of the territories, which had only limited powers, met at Regina. Order was well maintained by the Royal North-West Mounted Police.

In 1885 considerable attention was attracted to Saskatchewan by the Half-breed rebellion under Louis Riel. It was productive of some rather bloody skirmishes and local atrocities but it never became really serious and was easily put down by the police and a column of regulars under General Middleton.

At this time and for many years afterwards, the province was very sparsely settled, owing largely to its isolation. The completion of the C. P. R. in 1886 helped matters somewhat, but it is only in recent years that any striking increase of population has shown itself. So strong has been the tide of immigration that in 1905 its population was considered by the Dominion Government to be sufficiently large to warrant its formation into a new province and on September 4th of that year it became a full-fledged member of the Confederation. After considerable discussion the capital was located at Regina.

## CITY OF REGINA.

The City of Regina is an incorporated city (June, 1903), and the capital of the new Province of Saskatchewan, situated on the main line of the Canadian Pacific Ratilway, distant about 360 miles west of Winnipeg, 480 miles east of Calgary, and about 120 miles north of the Boundary Line between Canada and the United States of America, and has an area of 2,000 acres, with an estimated population of 8,000 in 1906. The rate of taxation in 1906 was 15 mills, showing a decrease of 5 mills as compared with 1905, and 7 mills as compared with 1901. Regina is the Commercial and Distributing Centre of the Province, and is destined to become the Wholesale Centre of the North-West.

**15**

It is the Headquarters of the Supreme Court of the North-West Territories, and the Royal North-West Mounted Police. The Land Titles Office, Dominion Land Office, and Dominion Immigration Department have their offices here. There are five schools, including a High School, and a Normal School. There are two daily newspapers—"The Leader," and "The Standard," and four English weekly papers, viz: "The Leader," "The Standard," "The West," and "The Tattler," and one German paper, viz: "The Deutsche Rundschau." Regina also possesses a unique advertising medium—"Francombe's Express Advertiser"—published and delivered to all offices in the City within one hour from receipt of advertisement. There are an active Board of Trade, a live Agricultural Association, eight Chartered Banks, two Clubs, nine Hotels, and many boarding houses and restaurants. Has seven places of worship—Church of England, Roman Catholic, Presbyterian, Methodist, Baptist, Greek Church, and Salvation Army Barracks; a Public Hospital and a Sanitorium.

Regina is rapidly becoming a manufacturing centre. Two years ago this City was made a distributing railway centre, with all the advantages which a railway centre implies, and the result was not slow to show itself. Wholesale Canadian houses and several American firms have already erected extensive warehouses, and are carrying on extensive distributing business from this centre. At present there are two machine shops and foundries, two planing mills and factories, a steam laundry, two abattoirs, a pork packing plant, a roller flour mill with a capacity of 125 barrels per day, two small cigar factories, three mineral water factories, a brewery not yet in operation, awaiting arrival of machinery, designed to turn out from 30 to 40 barrels per day; five elevators with a total capacity of 160,000 bushels, and five lumber yards. The erection of a gas works, and a soap factory is under contemplation.

Rapid improvements are being made on its streets and sidewalks. There are now constructed one mile of Bithulitic pavement, one mile of Creosote Wood Block pavement, 65 miles of

FRANCOMBE'S REGINA CITY

graded streets, four miles of Granolithic sidewalks, 25 miles of plank sidewalks, 10 miles of sewers, 18 mile of water mains with 105 hydrants, and two miles of boulevard streets. The streets are lit by 49 arc lights, each of 2,000 c.p., and five incandescent lights, each of 50 c.p. Efforts are being made to lay out its Parks (100 acres), and to boulevard its residential thoroughfares.

The water supply is abundant and easily accessible. The rainfall is plentiful, June being considered the wet month of the year. As a rule farmers find water on their farms at an easy depth, and no settler need have any fear on the score of a scarcity of water for his house and livestock. To the north of the City is Boggy Creek, and to the south Wascana Creek, both are fed by rills and smaller creeks.

The year 1906 was conspicuous for the number of residences erected. Probably 800 houses were built last year. Among the public buildings that are in course of erection or arranged for a speedy construction are a Post Office and Custom House, the City Hall, Methodist Church, Baptist Church, Roman Catholic Convent, New Central School, Wascana Hotel and Kings Hotel, the Northern Bank Buildings, and the Canada Permanent Mortgage Corporation Buildings. The value of buildings erected in Regina during the year 1906 was over \$2,000,000, and the estimated value of the buildings to be erected in 1907 will be over \$1,000,000.

The seat of the Provincial Government, and the educational centre of the Province is in Regina.

The government of the City is carried on under a Charter from the Provincial Legislature. The council is composed of a Mayor and ten Aldermen. Two Aldermen being elected from each Ward of the City. Each Alderman holds office for two years, and the Mayor is elected annually. Owners of property rated on the assessment roll of the City to the value of \$500 are eligible as members of the Council. The election is held annually on the second Monday in December, and nominations on the first Monday in the same month.

## PROCEEDINGS OF THE COUNCIL.

After the first meeting of the Council, which is held on the first Monday in January, or on the day after, if a holiday, regular meetings are held in the Council Chamber every first and third Tuesday in each month throughout the year at the hour of 7.30 p.m. Special meetings may be called by the Mayor at any time or whenever requested to do so by a majority of the Council. Notice of all such meetings is required to be given to all members of the Council the day previous.

No standing rule of the Council can be suspended except by a vote of two-thirds of the members present.

Every by-law must receive three several readings and no by-law can receive any more than two readings at any one meeting, except with the unanimous consent of all members of the Council present.

## ORDERS OF THE DAY.

REGINA, SASK.

34

FRANCOMBE'S REGINA CITY

the House of Parliament, the Provincial Normal School and Separate Schools. To the liberality of her citizens Regina is today adorned by several palatial buildings devoted solely to educational pursuits.

The Public and High Schools of Regina follow the system of the Department of Education, a system both practical and educational, having for its basis the governing needs of the West. The object of these schools is to give a liberal and practical education. The Principals and teachers are chosen from the best that can be obtained and two special instructors are placed in charge of drill and calisthenics, music and drawing. The courses of study commence with the Kindergarten and end with the completion of the first year in the University; this will be extended to embrace, at next autumn, the second year university work.

## THE COURSES OF STUDY.

I. In the High School Department courses of study have been arranged leading to: (1) Standards V., VI., VII. and VIII. Diplomas; (2) Teachers' 1st, 2nd and 3rd class certificates; (3) University Matriculation in Arts, Law and Medicine; (4) First year in University; (5) A general education for students not desiring any of the courses leading to Teachers' or University Examinations.

II. The Public School course consists of all the studies from the Kindergarten to Standard V., prescribed by the Department of Education.

III. Music, Drawing, Drill and Calisthenics. Special teachers are employed in these subjects by both High and Public Schools. Pupils can get an elementary education in Singing and Drawing.

In connection with the High School there are the necessary libraries and lavatories, which are being constantly increased to meet the needs of the pupils. A Literary and Musical Society and Cadet Corps are fully organised in connection with this institution.

## NOTICE.

*To Users of Printing:--*

The Regina Printing Company is one of the new concerns of this growing city, having started in business on Jan. 1, 1907, and we take this method of calling the attention of all who have printing to be done to the fact that we are in the field for that purpose, and are prepared to do first class work.

A touch of originality will be found in every bit of printing turned out by us; whether it is black work or in colors. We have a standard and we stick to it.

*The*  
**Regina Printing  
Company.**

## ARTISTIC PRINTING

Telephone 337.

Post Office Box 746.

**Individuality**

**Originality**

**Artistic Designs**

**New Ideas**

**New Type**

**A Business Man's  
Stationery is a Business  
Man's Trade-  
Mark.**

**Get the Best.**

**Do you appreciate  
Intelligent, Careful Co-  
operation and Prompt  
and Reliable Service  
in Turning Out Your  
Printing Orders? Of  
Course you do! Then  
Let US Help YOU. We  
Satisfy the Most Ex-  
acting. A Trial Order  
Will Convince You.**

### **We Compete in Excellence of Work Rather Than in Price.**

**IF YOU** ever hear the speller for the cheap-jewelry auction crying at the passing crowd, shouting and whining, "Step right in, ladies and gentlemen, and take the benefit of the greatest bargains ever known. Watches and diamond rings going at your own prices. This is the place where you get \$20 worth for \$10?" And did this cause you to go in there with a desire to partake of the bargains? Did it turn your steps when you wanted a piece of jewelry? And haven't you picked up printer's announcement after printer's announcement and seen the spreading forth of just this same cry: "Come to us for prices when you want printing. We can quote you figures that will get your business. Always a pleasure to make estimates?" And didn't these fill you with the same contempt as the cryings of the jewelry speller until you met so many that you ceased to pay any attention at all?
